U.S. Fish and Wildlife Service - Idaho Fish and Wildlife Office **Endangered, Threatened, Proposed, and Candidate Species** **With Associated Proposed and Critical Habitats** *(Updated Cwi w/39, '2011)*

Federal Agency Assistance and Consultation

Section 7(c) of the Endangered Species Act directs the U.S. Fish and Wildlife Service to consult with federal agencies on any proposed actions (direct or indirect) on federal lands that may potentially affect listed, proposed or candidate species or their habitat.

It is the responsibility of federal "action agencies" (or their designated representatives) to obtain an official table ("Species List") of listed, proposed and candidate species that may be present where the proposed activity is to occur. If the project potentially affects the species or its habitat, the federal agency is required to consult with the Service.

To assist agencies with this task, the Service prepares and regularly updates Species Lists by county. The lists are valid for up to 180 days. Species List areas may be larger than the footprint of the proposed activity. Status changes, such as listings, delistings or critical habitat designations, will be updated immediately by the Service so the action agency will always have access to the most current information for project planning.

For comprehensive information specific to federal agency assistance and consultation, go to: <http://www.fws.gov/idaho/agencies.htm>

Obtaining Species Lists for Proposed Federal Actions

The Fish and Wildlife Service is developing a web-based system that will allow Action Agencies to generate project-specific Species Lists. We will provide instructions when the new web-based species list system is launched.

Until then, please obtain an official "T&E Species List" directly from the Service's Idaho FWS website, which is organized by county for your proposed activity consultation.

This list will ensure that your project records contain the most current species information. Please print and retain a copy of this list with your project records. Should your project plans expand or change to include additional counties, you will need to check the website for an updated list, and reprint a new species list for your files.

To obtain the most current County Species List (PDF file for download), click on the link under "Obtaining an Official T&E Species List for Proposed Federal Actions" - www.fws.gov/idaho/species/IdahoSpeciesList.pdf.

Before initiating an action, a federal action agency (or their designated representative) that is planning an activity must obtain a list of species that may be present in the proposed project area. (Please note that the area for which this list is being generated may encompass a larger area than the footprint of the construction.) The area includes any effects of the action (direct and indirect) that may potentially affect species or habitats.

This species/county table meets the Fish and Wildlife Services' regulatory obligation under Section 7(c) of the Endangered Species Act (Act) to provide federal agencies with a species list. Please print and retain a copy of this table and this information sheet with your project records.

Use this information to verify the habitats and/or species present in the area affected by the projects you are developing. Any project-specific species list generated from this table is valid for up to 180 days. Because the information in this table may change without notice, you are advised to visit our website frequently.

When you submit a request for Section 7 Consultation, please include a copy of your downloaded Species List marked with the date that it was downloaded. This will document your compliance with 50 CFR 402.12(c).

If the area affected by the proposed project extends beyond the boundary of the State of Idaho, please contact the appropriate U.S. Fish and Wildlife Service office listed below to obtain a Species List for their area of jurisdiction.

U.S. Fish and Wildlife Service Contacts

Idaho – Bob Kibler, bob_kibler@fws.gov (208) 378-5255
Montana – Montana Ecological Services Field Office (406) 449-5225
Nevada – Nevada Fish & Wildlife Office (775) 861-6300
Oregon – La Grande Field Office (541) 962-8584
Utah – Utah Ecological Service Field Office (801) 975-3330
Washington – Spokane Field Office (509) 891-6839
Wyoming – Wyoming Ecological Services Field Office (307) 772-2374

Candidate Species Conservation

Though candidate species have no protection under the Act, they are included in the table for early planning consideration. Candidate species could be proposed or listed during the project planning period. The Service advises you to evaluate potential effects to candidate species that may occur in the project area. Should the species be listed, this may expedite section 7 consultation under the Act.

NOAA Fisheries Species

Listed or proposed species that are under [National Marine Fisheries Service's \(NOAA Fisheries\)](#) jurisdiction do NOT appear on the Service's Species Lists. In Idaho, please contact NOAA Fisheries at (208) 378-5696 or visit [NOAA Fisheries'](#) webpage at <http://www.nwr.noaa.gov/Species-Lists.cfm> for consultation information.
